

CALIFORNIA PROPOSITION 65 DECLARATION

California Proposition 65 (also known as the Safe Drinking Water and Toxic Enforcement Act of 1986) refers to the California legislation that was intended by its authors to protect California citizens and the State's drinking water sources from chemicals known to cause cancer, birth defects or other reproductive harm, and to inform citizens about exposures to such chemicals.

Based on a thorough review of our internal processes and confirmation from our supplier partners, Maison Demarle does not manufacture products containing chemicals listed in California Proposition 65, therefore our products do not require a California Proposition 65 warning labeling.
